

An important message to our customers regarding the measures we are taking to support you during the COVID-19 pandemic.

While our number one priority is protecting the health and safety of our customers, employees and suppliers, we will do our best to support the continuation of your operations.

Service visits are still going ahead as planned and all engineers have been given specific hygiene instructions (i.e. Washing hands regularly, maintaining appropriate distance and sanitizing all common areas). If anyone experiences any symptoms, they are instructed to stay home.

We are closely following the CDC recommendations how to best decrease the spread of the virus and have implemented “no-visitors” policy to our facility as well. Please inform us of any access restrictions which may apply to your site.

Additionally, our Sales Team is prepared to advise you on how to cope with the increased demand you are experiencing now. Don't hesitate to reach out to any of us with any questions, concerns or help required.

Thank you!
